The Gladiolus Beautiful

There are many lovers of the Gladiolus who like to grow these handsome flowers in a wide variety of colors without regard to names or labels. For those who prefer to grow them in mixture, we made up our now famous RAINBOW MIXTURE. We are constantly improving this assortment every year by adding new varieties.

RAINBOW MIXTURE OF GLADIOLUS

This is a general assortment of many different varieties of Gladiolus, containing about all the colors of the rainbow. It is composed entirely of named varieties (unlabeled). There are no inferior discarded seedlings in this assortment such as some growers put into their mixtures. On the other hand it contains many varieties which sold at high prices when first introduced. A marvelous diversity of tints, shades and markings. Treat yourself to some of these beauties. It is intensely interesting to watch the different varieties open their beautiful colors. All large size bulbs.
